**School of Economics (University Campus)** 

And

Department of Economics, Affiliated Colleges Maa Shakumbhari University, Saharanpur

# SCHOOL OF ECONOMICS MAA SHAKUMBHARI UNIVERSITY, SAHARANPUR

#### VISION OF THE SCHOOL

To produce such academicians with morality, global competence, vision and skilled as are necessary to meet the challenges of emerging global knowledge, economy by the power of innovation, creativity and efficient learning ability.

#### MISSION OF THE SCHOOL

To emerge among the top institution in India within next ten years through applicability, humanity, implementing and operating dynamic-academic, administrative and functional process, for optimal use of available resources.

#### ABOUT THE SCHOOL OF ECONOMICS

The department supports Undergraduate and Postgraduate Programmes (BA, MA and Ph.D. in Economics, which draw a huge number of applicants from all over the country these programmes have a strong cortical and quantitative focus with an emphasis on empirical applications. Current faculty members of the all departments are contributing in the areas of emerging areas of economics in terms of teaching and research activities.

9

#### VISION

- Vision of the School of Economics, University Campus and affiliated Colleges is to create a community of Learners in the field of Regional, National and Global Economics by promoting outstanding teaching, Indian knowledge system(IKS), deep understanding and creating global centre of excellence in research for the growth of the Nation and Humanity.
- To achieve high standards of excellence in generating and propagating knowledge in Economics.
- To provide sustainable environment to the students and researchers who can learn, teach, become innovator and use of Economics for humanity.

#### MISSION

- To provide an effective teaching-learning process.
- To impart world-class education in an environment of fundamental and applied research in Economics.
- To emerge as a global centre of digital learning, academic excellence and innovative research.
- To include innovative skills, teamwork and ethical practices among students so as to meet societal expectations.
- To provide quality education for higher studies and competitive Examinations like ICSSR-UGC JRF/NET, GATE, SLET, IES, Civil Services.

#### Programme Outcomes (PO's)

- PO 1. Apply knowledge of Economics in all the field of learning consumer's behavior, producer behavior and price determination in different types of markets.
- PO2. Provide knowledge of National Income, Employment theories, Investment multiples and accelerator principle.
- PO3. Apply knowledge of Research Methodology higher research work and innovations.
- PO4. Understanding the basic reasoning of Economics and able to apply mathematical tools and techniques to study the behaviors of economic agents.
- PO5. Provide knowledge of theories of distribution and welfare Economics.
- PO6. Enable the students to understand theory, practice of money and banking and analysis the interaction between the monetary forces, their development, their role in the development of Economy.
- PO7. Apply knowledge of various concepts and theories of growth and development through HDI, GDI, HCI.
- PO8. Enable students in getting employment in different areas such as industry, banks and Insurance sector educational research institutions.
- PO9. Provide knowledge of Economics of govt. Expenditure, revenue, taxation and Public Borrowing, Fiscal policy and its implication.
- PO10. Impart knowledge regarding money and capital market, a Indian Financial system.
- PO11. Aware the students with the current problems and future challenges of Indian Economy.

Should

#### **Programme Specific Outcomes (PSO's)**

- PSO1. The students would be able to apply theories and models of Economics in all fields of learning.
- PSO2. Demonstrate competence in using Economic theories in real life applications.
- PSO 3. Undertake specific enquiry and research using quantitative and qualitative methods to resolve socio economic problems.
- PSO 4. Use appropriate techniques to solve the problems with calculus and linear algebra.
- PSO 5. To provide students deeper knowledge about distribution and welfare aspect of economic activities.
- PSO 6. Gain knowledge of recent developments in growth and development and carry out development work as well as take up challenges in the emerging areas of the country.
- PSO 7. To Provide students deeper knowledge of industry computer and Insurance sector etc. to improve their own learning and performance.
- PSO 8. Apply the Principles of Public Economics in analyzing various government Policies.
- PSO 9. Apply the trade theories tariff theories and BOP's for the development of country.
- PSO 10. Familiar the students about controller of Financial system e.g. RBI, SEBI, IRDA.
- PSO 11. To provide students' knowledge, ability and computational techniques so that they will be able to work as professionals.
- PSO 12. Understanding various concepts of population both qualitative and quantitative with various demographic techniques.
- PSO 13. Apply appropriate Economic techniques to solve environmental problems and measure value of eco nonmetal goods.

#### **Examination Pattern**

#### Internal Examination:

1. One written Test of 20 Marks (5 Marks Quiz + 15 Marks (Very Short + Short + Long Question))

2. Five Marks for Class performance/Attendance.

External Examination: Written Exam of 75 marks 3 Hrs Duration.

#### External Exam Pattern:

Unit-I: Attempt all five question. Each question carry 3 marks.

Unit-II: Attempt Any Two out of three. Each Question carry 7.5 marks each.

Unit-III: Attempt Any Three out of Five. Each Question carry 15 marks each.

#### Minimum Marks: 40

1. In each individual paper Forty Marks i.e. 40% with aggregate of 50% in all courses.

2, Division: First Division - CGPA 6.5 and Less than 10, Second division - CGPA 5.0 and less than 6.5. There is no provision of Third division.

Equivalent Percentage = CGPA x 9.5

Note: Percentage and Grading system applicable as per NEP2020 GO 1032/Sattar-2022-08(35)/2020, Higher Education Division -3, Lucknow Dated 20.04.2022

# Detailed Syllabus For M.A. (ECONOMICS)

5

Alder

Programme/ Class: M.A	Year: First	Semester: 1/7
	Subject: Economics	
Course Code: 0710821	Course Title: Micro Economics I	(Theory)
	course little: Micro Economics I	

Course Objectives- This paper analyses the economics behaviour of individuals, firms and markets, It is mainly concerned with the objective of equipping the students with various aspects of consumer behaviour and demand analysis, production theory, product pricing and market behaviour, welfare economics,

general equilibrium and analysis of economic behaviour under uncertainly and game theory.

Core Compulsory

Max. Marks: 25+75 (Internal + External )		Min. Passing Marks: 40		
	Total No. of Lecture-Tutorials-Practical (	in hours per week): L-T-P: 4-0-0		
Unit	Top	pic	No. of Lectures = 60	
I	Introduction- Basic Economic problem choice methods, Positive and Normative Economics,		12	
11	Effects, Hicks and Slutsky Approach and Appli income Consumption curves from indifference	umer Behaviour: Properties of indifference curve: Price and income Substitution ts, Hicks and Slutsky Approach and Applications, Derivation of demand curves and me Consumption curves from indifference curves, Applications of Elasticity of and, relation between elasticity, Marginal revenue, Average revenue and Total nue. Revealed Preference theory.		
III	Theory of Production and Cost- Theory of Properiod and long period: law of variable propocost combination of inputs; Expansion path, Cline, Multiproduct firm; Elasticity of substituti Functions. Theories of cost derivation of cost derived demand for factors.	rtions and returns to scale, Isoquants least Concepts of product line Isoclines and ridge on; Cobb- Douglas and CES Production	12	
IV	Market Structure (a): Price and output detern run & long run equilibrium, Monopoly- Short Discrimination, Monopolistic Competition.		12	
V	Market Structure (b): Price and output detern (Cournot, Bertrand, Edgeworth, Chamberlin, I solution) and collusive (Cartles and mergers, p system) models: Productive and allocative eff	Kinked demand curve and Stackelbert's price leadership and basing point price	12	

Teaching Learning Process: Class discussion/demonstrations, Power point presentation, Class activities/assignment, Field visits, internship, etc.

I	Introduction to Econometrics: Meaning, Objectives, Nature and scope of econometrics, Relationship with Mathematical Economics, Economics and Statistics. The raw material of Econometrics time series and cross section data. Methodology of Econometrics simple and multiple linear regression model- assumptions.		12
11	Two Variables and multiple regression analysis: The basic two variable regression models estimation- statistical inference and prediction- extensions of two variable regression model regression through origin sealing and units of measurement functional forms of regression model, Multiple Regression Analysis. The problem of estimation rotation and assumptions meaning of partial regression coefficients, the multiple coefficient of determination R2 and the multiple coefficient of correlation R - R2 and adjusted R2- partial correlation coefficients- Interpretation of multiple regression equation.		12
III	The classical Linear Regression Model: Assumptions estimation Ordinary Least Square Method, Properties of OLS estimator, Grassmarkov Theorem (BLUE): Hypothesis Testing; t- test for individual regression coefficient. Goodness of Fit; Prediction: Mean and Individual prediction; Maximum Likelihood Estimation.		12
IV	Simultaneous Equation models: Simultaneous equations model- structural and reduced form, Simultaneous equation bias and inconsistency of OLD estimator: The Identification problems. Rules for identification order and rank conditions; Indirect Least square; Two stage least square (2SLS); Dummy variables.		12
V	Time series and forecasting- Stationary and non-scorrelogram, unit roots; Dickey Fuller test; Co inte		12
