**SEMESTER-7**

Semester-7	Course code:
Paper-1: Research Methods	Old Code - 0710901
<b>Objective:</b> The aim is to familiarize the students with research's meaning, objectives and significance and the different methods and techniques used in data collection in research studies.	
Unit-1: Nature and Types of Psychological Research: Ex post facto, Experimental, Survey Research	
Unit-2: Methodological Strategies and Issues: Sampling Procedures	
Unit-3: Qualitative Methods: Nature, Assumptions. Grounded Theory, Ethnography	
Unit-4: Interview, Thematic Analysis, Questionnaire	
Unit-5: Writing Research Report: APA Style;	
Unit-6: Ethical issues in Psychological Research	
10 Hours per Unit,	Total: 60
Marks distribution: Internal (exam =10, Assignment=10, Attendance =5) =25, External = 75	

**Books:**

- 1) Hewitt, D. & Cramer, D. (2005). *Introduction to research methods in psychology*. New Delhi: Pearson.
- 2) Giles, D. C. (2002). *Advanced research methods in psychology*. New York: Routledge.
- 3) Mohsin, S. M. (1984). *Research methods in behavioural sciences*. New Delhi: Orient Longman.
- 4) Denzin, N. K. & Lincoln, Y. S. (2005). *Handbook of qualitative research*. Thousand Oaks, CA: Sage Publications.

Two handwritten signatures are present at the bottom of the page. The signature on the left appears to be "Shakumbhari" and the signature on the right appears to be "S. M. Mohsin".

Semester-7	Course code:
Paper - 2: Statistical Methods & Experimental Designs	Old Code – 0710902
<b>Objective:</b> The objective is to get the students acquainted with the statistical concepts and methods in Psychology and to create an understanding of different types of design employed in psychological research.	
Unit-1: Normal Distribution: Properties & Application. Parametric and Nonparametric Statistics: Chi-square ( $\chi^2$ ) and Sign test, Kruskal-Wallis and Mann-Whitney Tests	
Unit- 2: Special Correlation Methods: Bi-Serial, Point Bi-Serial, Tetrachoric, Phi Coefficient	
Unit- 3: Test of Statistical Significance: 't' and ANOVA One- and Two-way.	
Unit- 4: Introduction to Experimental Designs; Randomized Group Designs, Block Designs, Factorial Design; Within-group Design.	
Unit- 5: Regression and Prediction: Multiple and Partial Correlations; Regression Analysis	
Unit 6: Using Statistical Software in Psychology	
10 Hours per Unit,	Total: 60
Marks distribution: Internal (exam =10, Assignment=10, Attendance =5) =25, External = 75	

#### Books:

- 1) Broota, K. D. (2020). *Experimental design in behavioral research*. New Delhi: New Age International Private Ltd.
- 2) McGuigan, F. J. (1993). *Experimental psychology: Methods of research (6th Ed.)*. New Jersey: Prentice-Hall Inc.
- 3) Kerlinger, F. N. (2017). *Foundations of behavioral research*, New Delhi: Surjeet Publication.
- 4) Navarro, D., Foxcroft, D., & Faulkenberry, T. J. (2019). *Learning Statistics with JASP: A tutorial for psychology students and other beginners*. Freely downloadable from <https://learnstatswithjasp.com>

Semester-7	Course code:
Paper-3: Social Psychology	Old code- 0710903
<b>Objective:</b> The aim is to create understanding among the students about social behavior, social interaction, perception, aggression and violence.	
Unit- 1: Introduction, Nature, Meaning, Scope and Methods of Social Psychology	
Unit- 2: Theoretical Perspectives Social Construction, Social Exchange, Social Comparison	
Unit-3: Self and Identity: Organization of Self Knowledge, Culture and Self-Construal	
Unit-4: Person Perception, Self-Perception, Social Cognition, Influence Processes and Conformity	
Unit-5: Social Relations and Group Processes: Attraction and Intimacy, Pro-Social Behavior.	
Unit-6: Aggression and Violence, Prejudice and Inter-Group Conflicts, Psychology of Terrorism	
10 Hours per Unit,	Total: 60
Marks distribution: Internal (exam =10, Assignment=10, Attendance =5) =25, External = 75	

**Books:**

- 1) Branscombe N. R., Baron. R. A., & Kapoor, P. (2017). *Social psychology*. New Delhi: Pearson Education.
- 2) Deaux, K., Dane, C. F., & Wrightsman, S. L. (1993). *Social psychology in the 90's (6th Ed)*. Pacific Grove, California: Brooks & Cole Publishing.
- 3) Myers, D. G. (2008). *Social psychology*. USA: McGraw Hill Inc.
- 4) Brehm, S. S. & Kassin, S. M. (1990). *Social psychology*. Houghton: Mifflin.
- 5) Shaver, K. G. (1987). *Principles of social psychology (3rd)*. New Jersey: Lawrence Erlbaum Associates.

Semester-7	Course code:
Paper-4: Practicum	Old code – 0710980
Following practicum to be carried out:	
<ul style="list-style-type: none"><li>1) Thematic Apperception Test (TAT)</li><li>2) Home (family) adjustment inventory</li><li>3) Conformity Behavior/ Prejudice/ Aggression</li><li>4) Interpersonal Attraction</li><li>5) Approval Motive Inventory</li></ul>	
<i>Note.</i> Besides the above, the teacher can also design/replace relevant practicum.	
12 Hours per practicum,	Total: 60 hours
Marks distribution: External examination = 100	

Semester-7	Course code: Old code – 0710904
Paper-5A: Biological Foundations of Behavior	
Objective: The purpose of the course is to acquaint with the structure and function of the nervous system, the relationship between the brain and behavior.	
Unit-1: Introduction to Physiological Psychology Nature and Scope. Methods of Research: scanning and behavior techniques.	
Unit-2: Structure and Functions of Brain Cells: Structure, Types and Functions of Neurons and Supportive Cells. Neuronal Conduction: Resting Potential, Propagation of Action Potential, Synaptic Transmission and Neurotransmitters. Blood Brain Barrier,	
Unit-3: Anatomy of Nervous System: Types of Central Nervous System, and Peripheral Nervous System. Reflex Action	
Unit-4: Central Nervous System: Brain - Structure and functions; Spinal Cord - Structure and functions	
Unit-5: Recent Advances in Neurophysiology, Hemispheric Specialization and Localization, Consciousness, Altered Status of Consciousness,	
12 Hours per Unit,	Total: 60
Marks distribution: Internal(exam =10, Assignment=10, Attendance =5) =25, External =75	

Books:

- 1) Carlson, N. R. (2005). *Foundations of physiological psychology* (6<sup>th</sup> Ed). Boston: Pearson Education.
- 2) Kalat, W. (2017). *Biological psychology* (13<sup>th</sup> Ed). Boston: Cengage Learning.
- 3) Levinthal, C. F. (1990). *Introduction to physiological psychology*. Delhi: Prentice Hall of India.
- 4) Rosevear, M. R., Breedlove, S. M., & Leiman, A. L. (2001). *Biological psychology: An introduction to behavior and cognitive and clinical neuroscience* (3<sup>rd</sup> Ed.). USA: Sinauer Associates Inc.
- 5) Pinel, J. P. J. & Barnes, S. (2017). *Biopsychology (10th edition)*. USA: Pearson.

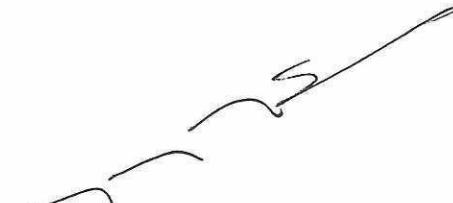

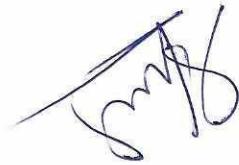

Semester-7	Course code:
Paper-5B: Project - 1A (optional)	Old code – 0710965
Project-1A: Prepare a study report using interview and other psychological tests/questionnaires.	
60 Hours for Project 1A	Total: 60 hours
<i>Note.</i> Pursuant to MSU order: 1049/06/AK/MSU/2024-25, dated 24th September 2024, the project work may only be granted to a candidate securing higher than 75% of marks in the graduation (in relevant stream).	
The project will replace Paper 5A (Biological foundations of behavior).	
The marking scheme for the project is as follows. Maximum 75 marks for the project report and maximum 25 marks for the research publications. Thus, the total of maximum marks for the project will be 100.	
In case there is no associated publication, zero marks will be awarded for the research publication.	

Semester-7	Course code:
Minor Elective & Value Added (for other faculty) General Psychology	Old Code-0710950
<b>Objective:</b> To introduce the basic concepts of Psychology like learning, intelligence, motivation and emotions.	
Unit-1: Learning, Classical Conditioning, Operant Conditioning, Learning by insight, and Observational learning	
Unit-2: Intelligence- Nature and Definition, Concept of IQ, Theories of Intelligence: Spearman, Thurstone, Guilford, Stenberg, and Gardner	
Unit-3. Motivation: Nature and concepts (Needs, Drives, Instincts, Incentives). Types of Motives: Biological and Social Motives	
Unit-4: Emotions: Nature and Types of Emotions, Theories of Emotions.	
15 Hours per Unit,	Total: 60
Marks distribution:, External = 100	

**Books:**

- 1) Morgan, C. T., King, R. A., Weisz, J. R., & Schopler, J. (2017). *Introduction to psychology*. Delhi: McGraw Hill Education (India) Private Limited.
- 2) Baron, R. & Misra, G. (2016). *Psychology (5<sup>th</sup> Ed.)*. Delhi: Pearson Education.

4) Kline, T. J. B. (2005). *Psychological testing*. New Delhi: Sage Publication.

3) Jackson, C. (2003). *Understanding psychological testing*. Mumbai: Jacco Publication House.

2) Guilfkesen, H. (1987). *Theory of mental tests*. New York: Routledge.

1) Chaddha, N. K. (2009). *Applied Psychology*. New Delhi: Sage Publication.

#### Books:

Unit-1: Fundamentals of Psychometrics, Nature of Psychological Measurement	Measurement Scales, Errors in Measurement	10 Hours per Unit,	Total 60
Unit-2: Steps used in Test Construction and Item Analysis	Unit -6: Introduction to Factor Analysis		
Unit-3: Types and Methods of Determining Different Types of Reliabilities and Validities.	Unit -5: Application of Tests and Ethical Issues.		
Unit-4: Standardization and norms; Types of Norms, Specificity of Norms			
Unit-5: Application of Tests and Ethical Issues.			
Unit-6: Introduction to Factor Analysis			
Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75			

#### SEMESTER-8

Unit-1: Attention and Perceptual Processes: Current Paradigms, Switching Attention, Perception Control and Attention Training: Perception: Perceptual Processes, Approaches to Perception, Thinking: problem-solving, Types and Theories of Thinking, Semantic Comprehension, Whorfian Hypotheses
---

Objective: This course seeks to create understanding and knowledge about cognitive aspects of behavior such as attention and perceptual processes memory, language and speech production, thinking: problem-solving, and decision-making.
---

Unit-2: Memory Processes, Current Models, Organization of Sensors, Short-term and Long-term Memory, Eye-Witness Memory, Enhancing Memory, Flashback memory, Construction and Reconstruction of Memory, Theories of Forgetting
---

Unit-3: Language and Speech Production: Structure, Comprehension and Production, Sentence Comprehension, Whorfian Hypotheses
--

Unit-4: Thinking and Problem Solving: Meaning, Types and Theories of Thinking, Reasoning and Problem Solving, Types and Strategies of Problem Solving, Unit-5: Creativity and Decision-Making: Meaning and Nature, Factors Influencing Decision Making and Judgments, Improving Decision Making
---

1) Galotti, K. M. (1999). <i>Cognitive psychology in and outside laboratory</i> . Mumbai: Thomson Asia.
---

2) Matlin, M. W. (1995). <i>Cognition</i> (6th Ed.). USA: John Wiley & Sons.
--

3) Wessells, M. G. (1982). <i>Cognitive psychology</i> . New York: Harper and Row.
--

4) Shodras, J., G., Levy-Berger, G., & Haydon, M. (1985). <i>Human experimental psychology</i> . New York: Oxford University Press.
---

5) Kellogue, R. T. (2003). <i>Cognitive psychology</i> . USA: Sage Publication.
---

**Books:**

Semester-8	Course code:	Paper-3: Theories of Personality	Old Code - 0810904
Objectives:	This course is intended to present knowledge about the nature and issues of personality, different approaches, such as cognitive and learning, and to acknowledge the recent advancements in personality research.	Unit-1: Approaches to the study of Personality: Trait, Type, and Eclectic Approaches, Biological and Socio Cultural Determinants, Controversial Issues in Personality Research.	Unit-2: Theoretical Perspective: Allport, Cattell, Freud, Adler, Eric Erikson, Carl Jung, and Five-Factor Model
Unit-3: Cognitive and Learning Approaches to Personality. Lewin, Festinger, Bandura, and Skinner.	Unit-4: Humanistic Approaches: Maslow's Need theory and Rogers' Self Theory,	Unit-5: Recent Advances in Personality Research: Human Strength and Virtues; Learned Helplessness.	Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75
Books:	1) Hall, C. S., Lindzey, G., & Campbell, J. B. (1997). <i>Theories of personality</i> (4th Ed.). UK: Wiley. 2) Fraiser, R. & Fadiman, J. (2005). <i>Personality &amp; personal growth</i> (6th Ed.). New York: Pearson Prentice Hall. 3) Bayes, B. M. & Sholler, J. S. (1997). <i>Reconstructing the psychological subject</i> . London: Sage Publications. 4) Olson, M. H. & Hergenhahn, B. R. (2010). <i>An introduction to theories of personality</i> (8th Ed.). USA: Pearson Publicaiton.		

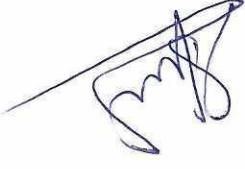

Semester-8	Course code:	Paper-4: Practicum	Old code -0810980	Following practicum to be carried out:
1) Creativity Test	2) Rorschach Inkblot Test	3) Memory Process/Ziegarnik Effect.	4) Five Factor Inventory	5) IPIP
Note: Besides the above, the teacher can design/replace other relevant practicum.	Total: 60 hours	Marks distribution: External examination = 100	12 Hours per practicum,	

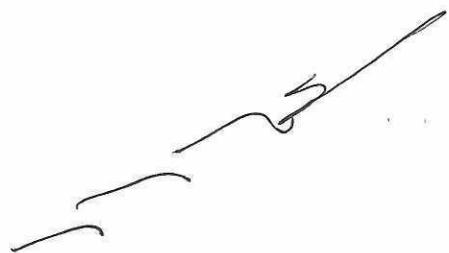

A handwritten signature is written across the bottom of the page, appearing to be a stylized form of 'S. S. Jaiswal'.

Semester-8	Course code:	Unit-1: Introduction: Nature of Positive Psychology, Assumptions and Goals.
Paper- SA: Positive Psychology	Old Code - 0810901	Unit-2: Happiness: Basic concept, Subjective well-being, Measurement of Happiness, Correlates of Happiness.
Objective: This course is aimed at presenting the positive outlook and approaches to behavioral aspects of people, basic concepts and criteria of positive health and happiness and emotional competence in human life.	Unit-3: Positive Emotions and Well-being: Motional Intelligence: Theoretical Models and Applications, Emotional Longevity, Hope and Optimism.	
Unit-4: Positive Traits: Big-Five Personality Factors, Virtues and Strengths of Character, Implications and Controversies.	Unit-5: Positive Health and Positive Change: Meaning, Criteria of Positive Health, Stages of Change: Processes and Implication.	
Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75	Total: 60	Books:

- 1) Cart, A. (2022). *Positive psychology: The science of wellbeing and human strengths* (3rd Ed.). London: Routledge.
- 2) Snyder, C. R. & Lopez, S. J. (2011). *Handbook of positive psychology*. New York: Oxford University Press.
- 3) Baumgardner, S. R. & Others, M. K. (2009). *Positive psychology*. Delhi: Pearson Education.

Semester-8	Course code:	Paper- 5 B: Project IB (Optional)	Old code -0810965
Project-IB	Data Analysis and writing Research Report of Project (IA+IB)	Viva Voce of Project (IA+IB)	60 Hours for Project IB Total: 60 hours
Marks distribution: Project Report = 75, Publication = 25	Note. Only the candidates that opted project in semester-7 will be able to continue with the project in this semester.	The project will replace Paper 5A (Positive Psychology).	
			

Semester-8

Course code:

Mimor Effective & Value Added (for other faculty) Old Code-810950

Stress Management

Unit-1: Nature of Stress: Hans Seyle GAS Model, Sources of Stress

managing/coping with stress, and time management.

Objective: This Old is aimed at understanding the nature of stress and health.

Unit-2: Managing/Coping with Stress: Self-Management through Self Awareness, Yoga Meditation, Techniques of Coping: Time Management, Relaxation Training, Indian and Western Coping Styles

Unit-3: Role of Happiness, Personality, and Socio-Economic Status in Mental Health and Stress

1) Pestonjee, D. M. (1998). *Stress and coping: The Indian experience*. New Delhi: Sage Publications.

2) Mishra, G. (1999). *Psychological perspective on stress and health*. New Delhi: New Delhi: South Asia Books.

3) Cooper, C. L. & Quick, J. C. (2017). *The Handbook of Stress and Health: A Guide to Research and Practice*. UK: Wiley Blackwell.

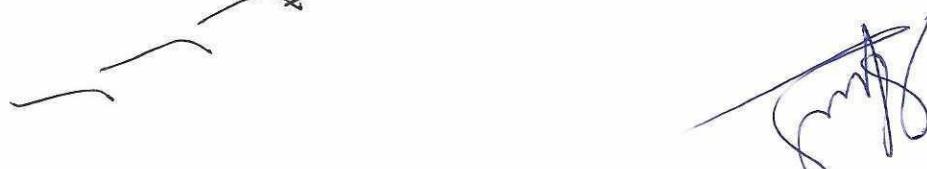

Books:

Unit-4: Organizational-Role Stress, Coping with the Organizational-Role Stress	15 Hours per Unit,	Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75 Total: 60
--	--------------------	---

Unit-3: Role of Happiness, Personality, and Socio-Economic Status in Mental Health and Stress	15 Hours per Unit,	Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75 Total: 60
---	--------------------	---

Unit-2: Managing/Coping with Stress	15 Hours per Unit,	Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75 Total: 60
-------------------------------------	--------------------	---

Unit-1: Nature of Stress: Hans Seyle GAS Model, Sources of Stress	15 Hours per Unit,	Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75 Total: 60
---	--------------------	---

**Semester-9**

**Paper- I: Health Psychology**

**Course code:**

**Old Code -0910901**

**Objective:** To gain familiarity with the meaning of health in a socio-cultural context, stress and coping behavior, behavioral health resources, promoting and maintaining mental health behavior, chronic diseases, and the future of health psychology.

**Unit-1:** Meaning of Health in Socio Cultural Context: Nature, Scope and Development, Psychosomatic Medicine, Behavioral Medicine, Behavioral Health; Models of Health

**Unit-2:** Stress and Coping Behavior: Models and sources of Stress, Techniques of Coping and the Stress Management.

**Unit-3:** Behavioral Health: Preventing Smoking, Health Consequences of Tobacco Use, Interventions to Reduce Smoking; Preventing Alcohol and Other Drug Abuses, Economic and Spiritual Resources of Promoting and Maintaining Mental Health; Biochemical, Socio-Cultural, Unit-5: Behavior and Chronic Diseases: Identifying Behavioral Factors in Cardio-Vascular Diseases, Cancer, Diabetes, HIV and AIDS.

**Unit-6:** Future Prospects of Health Psychology  
Total : 60  
10 Hours per Unit  
Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75

**Books:**

- 1) Aboud, F. E. (1998). *Health psychology in global perspective*. Thousand Oaks, CA: Sage Publications.
- 2) Brannon, L. & Feist, J. (2000). *Health psychology: An introduction to behavior and health* (4th Ed.). USA: Wadsworth/Thomson Learning.
- 3) Taylor, S. E. (2018). *Health Psychology* (10th Ed.). Noida: McGraw Hill Education.
- 4) Friedman, H. S. (1989). *Health Psychology*. New York: Pearson Prentice-Hall.

**SEMESTER-9**

Semester-9

Paper-2: Guidance and Counseling

Old Code-0910902

Course code:

Objective: This course is prepared with the view to gain the knowledge about:

- Fundamentals of guidance and counseling.
- Methods of assessing personality.
- Characteristics and purposes of various types of counseling.
- Importance of counseling in real life.

Unit-1: Guidance and Counseling: Meaning, Nature, Characteristics and Basic Principles, Aims and Importance

Unit-2: Methods of Assessment: Intelligence, Home visits and Interview  
Interest; Case Study, Autobiography, Achievement, Aptitude, personality and Counseling Processes and Skills, Ethical Issues in Counseling

Unit-3: Characteristics of Counselor and Counselor as Professional Functionary, Counseling Services in Schools and Clinical Settings: Importance, Scope and Problems: Family, marital and Health Counseling

Unit-5: The Future and Status of Counseling with Special Reference to India.  
Total 60  
12 Hours per Unit,  
Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75

1) Hackney, H., L. & Cormier, S. (1996). *The professional counselor: A process guide to helping*. USA: Pearson Publication.  
2) Corey, G. (2019). *Theory and practice of counseling and psychotherapy (10th Ed.)*. Noida: Cengage India Private Limited.

3) Bellking, G. S. (1998). *Introduction to Counseling*. USA: W.G. Brown Publishing.  
4) Douglas, B., Wolfe, R., Strawbridge, S., Kaskett, E., & Galbraith, V. (2016). *The handbook of counseling psychology* (4th Ed.). UK: Sage Publication.

Books:

Semester-9	Course code:	Old Code-0910902	Paper-2: Guidance and Counseling	Objective: This course is prepared with the view to gain the knowledge about:

**Objective:** This course is aimed at creating an understanding of the different schools and approaches of psychology that have historically shaped its development into a mature discipline.

**Unit-1:** Introduction: Systems in Psychology- Meaning and Types, Basic Issues in Psychology.

**Unit-2:** Structuralism and Functionalism: Structuralism- Wilhelm Wundt (1832-1930), Wurzburg school, Titchener's Structuralism, Criticism of Structuralism; Functionalism- William James and Other American Pioneer Functionalists- G.S. Hall and J.M. Cattell, John Dewey, Angell, Harvey Carr.

**Unit-3:** Psychoanalysis and Humanistic Schools: Psychoanalysis- Sigmund Freud, Erikson, Jung; Humanistic Schools- Assumptions, Key Theorists and their Contributions.

**Unit-4:** Modern Associationism of Stimulus-Response: Ebbinghaus, Pavlov, Bakhrevi, and Thorndike

**Unit-5:** Behaviorism: Watson's Behaviorism as a System, Criticism of Watson's Behaviorism, Skinner, Tolman and Bandura.

Unit 6: Gestalt Psychology

10 Hours per Unit,

### Books:

1) Brechin, J. F. & Hodge, K. A. (2017). *History and systems of psychology*. UK: Cambridge University Press.

2) Hergenhahn, B. R. & Henley, T. B. (2013). *An introduction to the history of psychology* (7<sup>th</sup> Ed.). USA: Worth Cengage Learning.

3) Leahy, T. H. (2017). *A history of psychology: From antiquity to modernity*. USA: Routledge.

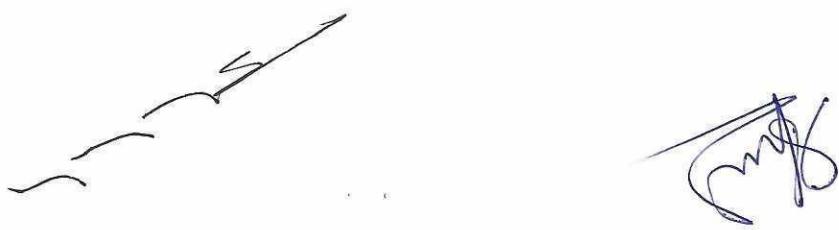

Semester-9	Course code:	Paper - 4: Psychopathology	Old Code - 0910904
<b>Objectives:</b> To get the students acquainted with the nature of psychological disorders, the classification of psychological disorders, Indian and other psychological disorders, the therapeutic management.			
Unit-1: Classification Systems and Models: Overview of the recent versions of Diagnostic and Statistical Manual (DSM) and International Classification of Diseases (ICD): Biological, Psychodynamic, Behavioral and Cognitive Models of Psychopathology	Unit-2: Neurotic, Stress-related and Somatic Disorders: Panic Disorders, Generalized Anxiety Disorder, Phobia, Obsessive-Compulsive Disorders, Post-traumatic Stress Disorders, Conversion Disorders, Dissociative Disorders.	Unit-3: Psychotic Disorders: Schizophrenia (Disorganized, Paranoid and Catatonic Type), Schizoaffective Disorders, Mood Disorders (Mania and Depression), Delusional Disorders	Unit-4: Substance Related Disorders: Alcohol Dependence, Short-term Effects of Cannabis, Unit-5: Mental Retardation and Specific Developmental Disorders of Scholastic Skills.
Mental Retardation, Specific Reading Disorder, Specific Disorders of Arithmetic Skills.	Total: 60	12 Hours Per Unit	Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75

Semester-9	Paper-5: Practicum	Course code:	Following Practicum to be carried out:	1. WAIS / WISC (Indian Adaptations)
				2. Stress test
				3. Shame and Guilt Scale
				4. Anxiety or Depression Scale
				5. Any Verbal Intelligence Test
				Note. Besides the above, the teacher can design/replace other relevant practicum.
			Total: 60 hours	Marks distribution: External examination = 100

Semester-9	Paper-6: Project 2A	Course code:	Project - II-A	Field Study and Data Collection on a Contemporary Psycho-Social Problem.
				60 Hours for Project 1A
				Total: 60 hours
				Marks distribution: Project Report = 75, Publication = 25

## SEMESTER-10

Semester-10

(Choose ANY FOUR courses out of the optional eight courses)

1) Clinical Psychology  
Objectives - To get the students acquainted with:  
Old Code - 1010901

Course code:

Unit-1: Clinical Psychology: Nature, Problems and Methods of Clinical Psychology.

- Clinical assessment
- Meaning of psychological diagnosis and prognosis
- Techniques of psychological diagnosis and prognosis
- Clinical psychology as a profession

Unit-2: Meaning of Psycho-Diagnosis: Types and Importance, Concept of Diagnosis.

Unit-3: Techniques of Psycho-Diagnosis: Neuro-Psychological Assessment- Bender Gestalt, AIMS Neuropsychology, TAT, Rorschach, WAIS, and MMPI, Case Study, Diagnostic Interview and Observation.

Unit-4: The Profession of Clinical Psychology: Training, Roles and Responsibilities in Clinical Psychology, The Future of Clinical Psychology, Especially in India.

Unit-5: Therapies: Biological and Psycho Social Therapies, Prevention.	12 Hours per Unit,	Total : 60
		Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75

### Books

3) Platte, T. G. (2010). *Contemporary clinical psychology* (3<sup>rd</sup> Ed.). Delhi: Wiley, CBS Publication.

2) Heckler, E. & Thorpe, G. L. (2016). *Introduction to clinical psychology*. New York: Routledge.

1) Korchni S. J. (2004). *Modern clinical psychology*. Delhi: CBS Publication.

2) **Organizational Psychology** Old Code - 1010902

**Unit-1.** Foundation for Organizational Behavior: Historical Context of Organizational Behavior, Models of Organizational Behavior, Scope and Opportunities for Organizational Behavior.

**Unit-2:** Individual in Organization: Theories of Work Motivation: Motivation and Performance: Employee Involvement Programs, Variable Pay Program, Skill-Based Pay Plan;

**Unit 3:** Special Issues in Motivation: Motivating professionals, motivating workers, Major Personality Attributes Affecting Organizational Behavior, Matching Personality and job, Skills involved in Changing Attitude.

**Unit-4:** Leadership: Nature of Organizational Leadership, Models of Organizational Leadership, Requirement of Effective Leadership.

**Unit-5:** Conflict Types and Management, Negotiation Skills, Organizational Stress and its Management: Role Stress, Occupational Stress, Burn Out, Coping Strategies, Skills Involved in Managing Stress, Counseling.

**Unit-6:** Decision Making: Traditional model of Decision Making, Approaches to Decision Making in Organization, Impediments to Optimal Decision, Improving Effectiveness of Group Decision.

**Unit-7:** Marks distribution: Internal (exam = 10, Assignment=10, Attendance=5) = 25, External = 75

**Books**2) Robbins, S. P., Judge, T. A., & Vohra, N. (2016). *Organizational behavior* (16<sup>th</sup> Ed.). Delhi: Pearson Education.3) Miner, J. B. (1992). *Industrial/organizational psychology*. New York: McGraw Hill.1) Luthans, F. (2001). *Organizational behavior* (9th Ed.). New Delhi: Tata McGraw-Hill Publishing Company Ltd.2) Robbins, S. P., Judge, T. A., & Vohra, N. (2016). *Organizational behavior* (16<sup>th</sup> Ed.). Delhi: Pearson Education.3) Miner, J. B. (1992). *Industrial/organizational psychology*. New York: McGraw Hill.

<p><b>Objectives:</b> The goal of this course is to create awareness and understanding of general concepts of organizational behavior as well as the structure and dynamics of an organization and its impact on human behavior.</p> <p><b>Unit-1.</b> Foundation for Organizational Behavior: Historical Context of Organizational Behavior, Models of Organizational Behavior, Scope and Opportunities for Organizational Behavior.</p> <p><b>Unit-2:</b> Individual in Organization: Theories of Work Motivation: Motivation and Performance: Employee Involvement Programs, Variable Pay Program, Skill-Based Pay Plan;</p> <p><b>Unit 3:</b> Special Issues in Motivation: Motivating professionals, motivating workers, Major Personality Attributes Affecting Organizational Behavior, Matching Personality and job, Skills involved in Changing Attitude.</p> <p><b>Unit-4:</b> Leadership: Nature of Organizational Leadership, Models of Organizational Leadership, Requirement of Effective Leadership.</p> <p><b>Unit-5:</b> Conflict Types and its Management, Negotiation Skills, Organizational Stress and its Management: Role Stress, Occupational Stress, Burn Out, Coping Strategies, Skills Involved in Managing Stress, Counseling.</p> <p><b>Unit-6:</b> Decision Making: Traditional model of Decision Making, Approaches to Decision Making in Organization, Impediments to Optimal Decision, Improving Effectiveness of Group Decision.</p> <p><b>Unit-7:</b> Marks distribution: Internal (exam = 10, Assignment=10, Attendance=5) = 25, External = 75</p>
--

(Choose ANY FOUR courses out of the optional eight courses)

Course code:

3) Industrial Psychology Old Code - 1010903  
Objective: The main objective is to create understanding and awareness about the nature of fundamental issues related to human behavior and the industrial environment.Unit-1: Introduction to Industrial Psychology: Definitions and Scope, Major Influence on Industrial Psychology: Scientific Management and Human Relations Schools, Hawthorne Experiments  
Unit-2: Individual in Work Place: Motivation and Job Satisfaction, Stress Management, Organizational Culture, Communication in OrganizationsUnit-3 : Recruitment and Selection: Process, Reliability and Validity of Recruitment Tests  
Unit-4: Work Environment and Engineering Psychology: Fatigue, Boredom, Accidents and Safety; Job Analysis  
Unit-5: Performance Management: Training and Development

Unit-6 : Leadership and Group Dynamics: Styles of Leadership, Different theories of Leadership	10 Hours per Unit, Total : 60	Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75
--	----------------------------------	---

**Books:**

- 1) Miner, J. B. (1992). *Industrial/organizational psychology: Its theoretical and social foundations*. Delhi: CBS Publication.
- 2) Blum, M. L. (2004). *Industrial organizational psychology*. New York: McGraw Hill.
- 3) Amodei, M. G. (2007). *Industrial/organizational psychology: An applied approach* (5th Ed.). Belmont: Wadsworth/Thompson.
- 4) Aswathappa, K. (2008). *Human resources management* (5th Ed.). New Delhi: Tata McGraw Hill.

Semester-10

Course code:

(Choose ANY FOUR courses out of the optional eight courses)

Objective: This course is aimed at a theoretical understanding of the development of personality.

Unit-1: Concept, Theories, Philosophical View, Maturation Theories, Behavioral Learning Theories Adaptation Theory, and other characteristics of adolescents.

**Unit-3: Moral Development, Play: Types and Development of Social Understanding.**

**Unit-5: Adulthood, Old Age and Death** Changes in Physical, Cognitive and Social Transitions,

Figure 6: Old Age- Characteristics, Changes in Cognitive Abilities. Adapted from Pihlström et al.

Larks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75  
total: 60

Books:

- 1) Berk, L. A. (2013). *Child development* (9<sup>th</sup> Ed.). Boston: Pearson Education.

2) Burnman, E. (2008). *Deconstructing developmental psychology*. New York: Taylor & Francis.

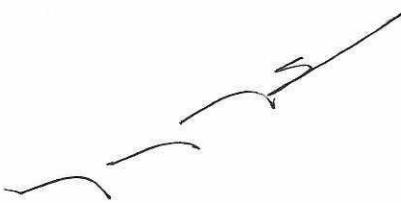

3) Gauvain, M. (2002). *The social context of human development*. New York: Guilford Press.

4) Lemire, R. M., Jacobs, F., & Werthlieb, D. (2005). *Applied developmental science: An advanced textbook*. Thousand Oaks: Sage Publication.

Course code:

(Choose ANY FOUR courses out of the optional eight courses)

5) Environmental Psychology      Old Code - 1010905  
Objective: This course is prepared to serve an understanding of environmental issues and factors and their impact on human behavior.Unit-1: Nature and Scope of Environmental Psychology  
Objectives: This course is prepared to serve an understanding of environmental issues and factors and their impact on human behavior.Unit-2: Approaches to Environmental Psychology  
and Behavior Constraints, Stress and Barker's Ecological Psychology  
perception and attitude, Cognitive maps.Unit-3: Environmental Cognition: Nature and Characteristics and Theories of environmental Catastrophe.  
Density, Temperature, Noise and Air Pollution, Meaning and Nature of Personal Space and Territorial Behavior, Effects on Social Behavior and PerformanceUnit-4: Environmental Stress: Nature and Characteristics, Meaning and Nature of Personal Space and Territorial Behavior, Effects on Social Behavior and Performance  
Unit-5: Personal Space and Territoriality: Meaning and Nature of Personal Space and Catastrophe.  
Unit-6: Methods of Changing Environmentally Favorable Attitude and Behavior.Books:  
1) Bell, P.A., Greene, T.C., Fisher, J.D., and Baum, A. (2001). *Environmental Psychology* (5<sup>th</sup> Ed.), Harcourt College Publishers.  
2) Steg, L., Van den Berg, A. E., & de Groot, J. I. M. (Eds.). (2013). *Environmental Psychology*: An introduction. BPS Blackwell.3) Bonnes, M., & Seccichiaroli, G. (1995). *Environmental psychology: A psycho-social introduction*. USA: Sage Publications4) Proshansky, H.M., Tritsos, W.H. and Rivlin, L.G. (Eds.). *Environmental Psychology (latest edition)*, New York: Holt, Rinehart & Winston

(Choose ANY FOUR courses out of the optional eight courses)

6) Community Psychology      Old Code - 1010906

Unit-1: Community Psychology: Definition, Nature, Scope and orientation, Its Development in Social and Historical Context, Factors underlying the emergence of Community Psychology

Unit-2: Mental Health Education: Practices of Mental health education effectiveness of mental health education.

Unit-3: Models: Mental Health, Social Action, Organizational and Ecological Model

Unit-4: Intervention: In Education System, Health System and Social Welfare System, National (Mental) health, Quality of life.

Unit-5: Prevention: Primary, Secondary and Tertiary.

Total: 60

Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75

### Books:

- Korchin S. J. (2004). *Modern clinical psychology*. Delhi: CBS Publications.
- Liscoe, L. & Spieberger, C. D. (1977). *Community psychology: Perspective in training and research*. New York: Appletion.
- Mann, A. P. (1978). *Community psychology: concept and application*. New York: Free Press.
- Reppaport, J. (1970). *Community psychology: Values, research and actions*. New York: Harcourt School.
- 5) Kloods, B., Hill, J., Thomas, E., Wandersman, A., Elias, M., & Datton, J. H. (2012). *Community Psychology: Linking individual and communities*. UK: Sage.
- 6) Deb, S., Sunny, A. M., & Sanjal, N. (2020). *Community psychology*. New Delhi: Sage.
- 7) Mortisegu, J., Vera, E., Wong, F. Y., & Duffy, K. G. (2013). *Community psychology* (5th Ed.). UK: Taylor & Francis.

Semester-I 0

Course code:

(Choose ANY FOUR courses out of the optional eight courses)

7) Neuro-Developmental Disorders  
Objective: This course is aimed at understanding learning disabilities, attention deficit hyperactivity disorder, autistic spectrum disorders, and dementia.

Unit-1: Learning Disabilities. Theoretical Framework, Types, Diagnostic Procedures, Diagnosis, and Etiology  
Unit-2: Attention Deficit Hyper-Activity Disorder: Theoretical Framework, Types, Diagnosis, and Etiology  
Unit-3: Autistic Spectrum Disorders: Theoretical Framework, Levels, Etiology, Assessment and Interventions

Unit-4: Dementias: Types and Classification; Alzheimer's disease: Histological Markers, Neuropsychological Profile.

Unit-5: Sub cortical Dementias with Special Reference to Parkinson's Disease  
12 Hours per Unit,  
Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75  
Total: 60

Books:  
1) Whitaker, H.A. (1988). *Neuropsychological studies of non-focal brain damage*. New York: Springer-Verlag

2) Walsh, K. (1994). *Neuropsychology: A clinical approach*. New Delhi, Churchill Livingstone.

3) Heilman, K. M. & Valenstein, E. (1993). *Clinical neuropsychology*. New York: Freeman, W. H.

4) Otoison, D. (1987). *Duality and unity of the brain*. London: MacMillan

Semester-I/O

Course code:

(Choose ANY FOUR courses out of the optional eight courses)

8) Human Resource Practices      Old Code - 1010908

Objective: This course is prepared to serve an understanding of planning and practices of human resource management in organizations.

Unit-1: Strategy and Human Resource Planning: Vision, Mission and Values, Environmental Analysis, Internal analysis, Issues of HR in Cultural Transition.

Unit-2: Meeting HR Requirements: Job Analysis and Job Descriptions, Diversity and Empowered employees.

Unit-3: Career Management and Developing Diverse Talent Pool, Competency Assessment: Perspective and Techniques, Performance Appraisal

Unit-4: International HRM, Globalization and Individual.

Unit-5: Communication and Teamwork in the International Workforce. Training and development, Talent management, cultural barriers.

12 Hours per Unit

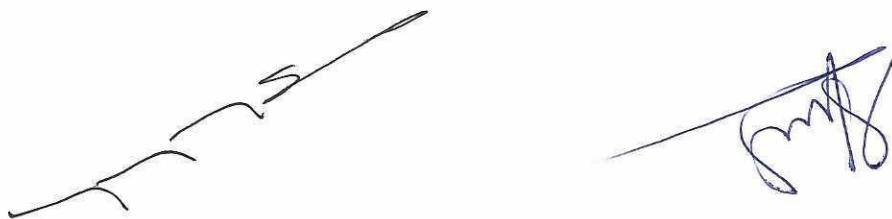

Total: 60

Marks distribution: Internal (exam = 10, Assignment = 10, Attendance = 5) = 25, External = 75

Books:

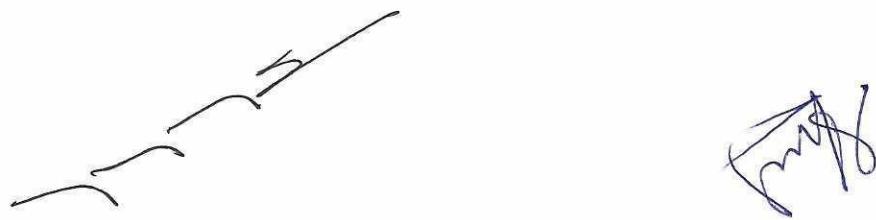

1) Bohlander, G. W. & Snell, S. (2007). *Human resource and management*, USA: Thomson South Western.

and reporting. New York: Routledge.

Paper - 2: Statistical Methods	Course Code-111092
Objective: To expose research students to nuances and actual applications of the statistical approaches used in research work.	Methods
I. Regression Analysis: Regression Equation and Coefficients- Calculation and Interpretation. Multiple regression analysis: Linear, Stepwise, and Logistic Regression Model, <i>t</i> -ratio, and Multiple Regression	Designs
3. ANOVA in Factorial Designs: Independent Samples, Repeated Measures, and Mixed Desig	Trend Analysis
4. Planned and Post-hoc Comparisons (Scheffe's, LSD, Newman Keuls, Duncan's, Tukey's).	Factor Analysis, Implementing Exploratory Factor Analysis, Confirmatory Factor Analysis, and Structural Equation Modeling: Basic Principles, Relation with Regression, ANOVA, and and interpreting the output
5. Structural Equation Modeling: Basic Principles, Relation with Regression, ANOVA, and Note. Students will learn and practice all statistical techniques on datasets using calculators and/or statistical packages as appropriate.	Marks distribution: Internal (exam = 10, Assignment=10, Attendance=5) = 25, External = 75 Total: 90
