About the Incubation Centre

MSU Academic Foundation's Incubation Centre has been established to promote entrepreneurship, innovation, and startup culture in Western Uttar Pradesh. Backed by the university's expansive network of 211+ affiliated colleges and partnerships with national and international innovation bodies, the Centre will support startups across diverse sectors including Agritech, Healthtech, EdTech, Clean Energy, Social Impact, AI Deep Tech, etc.

◆ **CEO Key Roles & Responsibilities**

● To lead the strategic development and operations of the university's Incubation Centre.

● Be answerable and responsible for all financial decisions(expenses, earnings and investments).

● To design and implement incubation programs, startup outreach, demo days, and mentoring networks.

● To identify market opportunities, government schemes, and funding mechanisms to support startups and student innovators.

● To foster partnerships with industry, government bodies, academic institutions, and international collaborators.

● To work closely with the Board of Directors, StartinUP and other govt./Non-govt. organisations to align the Centre's goals with MSU's academic and developmental vision.

● To oversee sustainability planning, fund-raising, grant proposal development, and impact assessment.

● **To ensure compliance, performance tracking, and strategic communication across the stakeholders.**

● To make the Incubation Center Self sustainable in the first three years.

Candidate's Profile & Eligibility

● Minimum Bachelor's degree in Engineering/ Management/ Agriculture/ Science, or any related field.
● Minimum 3 years full time experience in startups, incubation, entrepreneurship development, innovation management, or policy advocacy.
● Demonstrated leadership in building or managing startup programs, government-funded initiatives, or innovation ecosystems.
● Strong understanding of government startup schemes like StartinUP, SISFS, Startup India, DST/NIDHI, etc.
● Exceptional communication, team handling, networking, documentation skills.
● Should have completed a professional course or should have facilitated/attended sufficient hours of online/offline training in Startups, Fundraising, IP, etc. related fields.
● If the candidate presents some recommendation letters from globally recognised Incubation Centres & DPIIT recognised startups supporting the candidate's expertise and experience, he/she would be given preference.
● Being part of ISMC or any other Mentor Jury Panel for a renowned incubator may be given preference.
